

# Taking Your Digital Photography to the Next Level: *PART TWO*

***A WORKSHOP THAT WILL EXPAND BOTH YOUR SHOOTING SKILLS AND HELP YOU GET THE MOST OUT OF YOUR COMPUTER PROCESSING***

***In this workshop you will learn:***

- Advanced camera techniques for consistent exposure and color
- How the new features on today's latest cameras can make your photography better and easier
- All about RAW shooting and post-processing RAW images
- Retouching skills on the computer
- Batch processing a group of images
- Intermediate color and exposure correction techniques for image processing
- Working in layers
- Noise reduction, sharpening, B/W conversion and general workflow tricks
- Learn how to think like a professional when needing to make decisions on the spot.

***... and get your questions answered***

This workshop will continue to build on what was covered in previous seminars. Bring your camera and a laptop (rentals are available \$25) and grow in your photography expertise.
